

NORTRUCK

Quality metal fabrication since 1983...

Make your new truck work better with a Nortruck custom-made, slide-in aluminum canopy.

Our custom-made aluminum canopies give you an organized space for all your tools and materials and will keep them protected from water, dust and theft. And, because our canopies are aluminum, they will **protect your investment** by often outlasting multiple trucks. You can mount them on any appropriately rated domestic or foreign truck, new or used.

All our canopies are crafted to the **highest standards of quality** using the best materials and parts available anywhere. When you buy a Nortruck aluminum canopy, you can be confident of superior craftsmanship and investment protection. All of our canopies are covered by our one-year product and workmanship warranty.

Options you can order include roof racks, interior heaters, cargo beds, side compartments, interior lights, air-conditioning, and your choice of color. We can design, build and install custom doors, drawers, shelves or any other options you need in your canopy. **Whatever you need to get the job done, our craftsmen can build for you.**

Our prices include installation in our factory. Or we can arrange shipping to you, anywhere.

Our canopies come in four different styles: half-back, full-back, full-floor, and toolshed. We offer a choice of a long-lasting powder coat finish (white or black) or an exterior paint colour to match your truck.

Our strength is customization; if you need something special – please ask!

Half-back and Full-back Canopies

These are our entry level units offering excellent value at an affordable price. They rest on the truck bed rails and have either a single transom-style door above the tailgate or two “barn doors” replacing the tailgate. This type of canopy is suitable for tradesmen and contractors who want to store tools and materials in a *secure, waterproof space*.

Full-floor Canopy

Our most popular model; the full-floor canopy adds a floor to form a complete “shell” for added protection against dust and water. The entire structure rests on the truck bed which can extend the life of your truck and may increase its resale value. This type of canopy is often equipped with a rolling cargo bed.

Toolshed

The toolshed is our top-of-the-line truck-mounted canopy. Offering the *ultimate in versatile storage and access*, it is also high enough inside to work so it can become a “mobile field workshop”.
